Task – Task Dashboard

Task Dashboard displays overdue tasks, in-progress tasks, completed tasks, and the total number of tasks. Assignee shows the list of **admin assigned** to tasks, allowing user to check whether tasks are **in progress** or **completed**.

Task Dashboard memaparkan tugas tertunggak, tugas sedang dilaksanakan, tugas selesai, dan jumlah tugas keseluruhan. Assignee menunjukkan senarai **admin yang ditugaskan**, membolehkan pengguna melihat sama ada tugas **sedang dilaksanakan** atau **telah selesai**.

The screenshot displays the 'Task Dashboard' interface. At the top, there's a header with the user's name 'Super Admin' and the time '10:07:16 AM'. Below the header, there are four summary cards: 'Overdue Tasks' (0), 'In Progress Tasks' (11), 'Completed/Finished Task' (1), and 'Total Tasks' (12). Below these cards is a table titled 'Assignee' which lists tasks assigned to various admins. The table has columns for Name, Position, In Progress Tasks, Completed Tasks, and Action. The data is as follows:

Name	Position	In Progress Tasks	Completed Tasks	Action
Stellar admin	Company Admin	1	1	View
TestLogin	Company Admin	1	0	View
Uia00	Company Admin	0	0	View
Tester	Company Admin	1	0	View
Praghens Admin	Company Admin	0	0	View
testUser 1000	Company Admin	0	0	View
UserTest 0001	Company Admin	2	0	View
UserTest0003	Company Admin	0	0	View
UserTest0004	Company Admin	0	0	View
UserTest 0006	Company Admin	0	0	View

At the bottom right of the table, there's a pagination control showing 'Rows per page: 10' and '1-10 of 11'.
